

Sirun Sununtasin

Software Tester · Business Analyst · AI-Assisted Developer

PHONE 095-138-5471 EMAIL sirunsununtasin@gmail.com WEB sirun.codelabsdev.co

SUMMARY

Software Tester and Business Analyst with 1.5 years full-time plus 14 months of internships in **manual and automated QA, requirements analysis and AI-assisted development**. Automates end-to-end tests in **Playwright and Cypress**, load-tests with **k6**, and turns client requirements into specifications and test scenarios. Shipped a **complete e-commerce marketplace** with Claude Code and tested it through to launch.

1.5 years full-time in QA & BA, plus internships

4 live web platforms tested

3 test tools: Playwright, Cypress and k6

HOW I WORK 1 Requirements 2 Test design 3 Manual testing 4 Automation 5 Performance 6 Release check

WORK EXPERIENCE

Software Tester, Business Analyst & AI-Assisted Developer

Codelab

Full-time · 1 yr 6 mos

- Plan and execute manual functional, regression and performance testing across four live web platforms.
- Own the defect lifecycle, from logging and reproduction to verified fix before release.
- Build automated end-to-end tests with Playwright and Cypress; run load tests with k6.
- Test AI-powered features for response quality, accuracy and edge-case handling.
- Elicit client requirements, define scope and turn needs into specs and test scenarios.
- Develop and debug web features with Claude Code and Cursor.

Software Tester (Intern)

Bindzern

Internship · 10 mos

- Designed test cases and scenarios for the OrderPlus web platform (orderplus.me).
- Executed functional tests and reported defects to the development team.
- Supported users by answering queries and investigating reported issues.

Full-stack Developer (Intern)

Wise Soft

Internship · 4 mos

- Designed database schemas and wrote SQL queries.
- Built web application features with Java, Spring Boot and Angular.

EDUCATION

Chiang Mai University

College of Arts, Media and Technology (CAMT)

Digital Industry Integration

INDUSTRIES

E-commerce · Marketplace · Installment / Fintech · Chat Platform

SKILLS

HARD SKILLS

Software Testing

Functional testing, Regression testing, Load testing (k6), Test case design, Defect reporting, Playwright, Cypress, AI feature testing

Business Analysis

Requirements elicitation, Client meetings, Scope & user flows, User support

Development

Claude Code, Cursor, Java, Spring Boot, Angular, SQL, Debugging

SOFT SKILLS

- Clear client communication
- Analytical thinking
- Attention to detail
- Structured problem solving
- Team collaboration
- Learns new tools quickly

PROJECTS

Moremall moremallonline.com E-commerce marketplace Tester · AI Developer · Client Contact Built with Claude Code and tested end to end, from client requirements to launch.	GFINN gfinnshop.com Smartphone installment platform Tester · Business Analyst Elicited requirements and tested the core purchase and installment flows.	Inblox inblox.co Unified chat platform Tester · Business Analyst Elicited requirements and tested features that unify multiple chat channels in one inbox.	Jib E-commerce Client project Online retail platform Tester · Business Analyst · AI Developer Elicited requirements with the client, built features with AI tools and tested them before release.
